

# WA Pasture and Livestock Update Cranbrook

## Thursday 20 September 2018

**Starting at Sam Lehmann’s farm (11km north east of Cranbrook), then the Cranbrook Sporting Club for lunch and the afternoon session**

The day will start out in Sam’s paddocks to see and hear about the many pasture options he has introduced to his mixed farming system. Pastures to be inspected include (1) a mix of clover, oats, canola and ryegrass, (2) a vetch and oats fodder crop, (3) a newly sown tillage radish, winter canola and leafy turnip summer fodder crop, and (4) Anameka saltbush.

He will be joined by Col Bowey (CB Farming Systems), Chris Poole from ALOSCA and Daniel Kollehn from MALDI-ID (nitrogen fixation in legumes), Steve Carr from AgLime (soil pH and pastures) and Wendy Bradshaw from Gillamii (soil health).

After the farm tour, we will drive to Cranbrook for lunch and the afternoon session.

Speaker	Afternoon topics
Ed Riggall AgPro Management	Managing for high sheep profits in good & bad years
John Young Farming Systems Analysis Service	Merino Wethers – Prime Lamb, Hogget or Mutton?
