

ORCHIDS FOUND ON LOCATION 440. Jim Parry.

Orchid	Month	Botanical name
Albino Spider - 2	October	<i>Caladenia</i>
Cossack X Common Spider	October	<i>Caladenia</i>
White Spider X Cowslip	Sept	<i>Caladenia ??</i>
White Spider X Darting Spider	Sept	<i>Caladenia ??</i>
White Spider X Dragon	Sept	<i>Caladenia ??</i>
Butterfly X White Spider	October	<i>Caladenia ??</i>
White Fairy X Cowslip	October	<i>Caladenia ??</i>
Yellow Spider, Yellow Labellum	Sept	<i>Caladenia ???</i>
Tenterden Yellow Spider	Sept	<i>Caladenia aff. polychroma</i>
Mustard Orchid	October	<i>Caladenia caesarea subsp. caesarea</i>
Dwarf Mustard Orchid	Sept	<i>Caladenia caesarea subsp. transiens</i>
Zebra	Sept	<i>Caladenia cairnsiana</i>
Chameleon Spider	August	<i>Caladenia dimidia</i>
Cossack Spider	October	<i>Caladenia dorrieni</i>
Dragon Orchid	Sept	<i>Caladenia drakonorchis barbarossa</i>
Albino Dragon Orchid	October	<i>Caladenia drakonorchis barbarossa</i>
Fringed Mantis	Sept	<i>Caladenia falcata</i>
Blood Spider - May	October	<i>Caladenia filifera</i>
Cowslip	August	<i>Caladenia flava subsp. flava</i>
Crimson Spider	Sept	<i>Caladenia footeana</i>
Sugar Candy Orchid	Sept	<i>Caladenia herta subsp. herta</i>
Dwarf Common Spider	Sept	<i>Caladenia hiemalis</i>
Pink Fairy	Sept	<i>Caladenia latifolia</i>
Butterfly Orchid	October	<i>Caladenia lobata</i>
White Spider	August	<i>Caladenia longicauda subsp. longicauda</i>
Leaping Spider	August	<i>Caladenia macrostylis</i>
Big Clubbed Spider	October	<i>Caladenia magniclavata</i>
White Fairy	October	<i>Caladenia marginata</i>
Little Pink Fan	Sept	<i>Caladenia nana subsp. nana</i>
Pink Fan	Sept	<i>Caladenia nana subsp. unita</i>
King Spider	Nov	<i>Caladenia pectinata</i>
Joseph's Spider	Sept	<i>Caladenia polychroma</i>
Ray Spider Orchid	Sept	<i>Caladenia radiata</i>
Dwarf Pink Fairy	August	<i>Caladenia reptans subsp. reptans</i>
Darting Spider	October	<i>Caladenia uliginosa subsp. uliginosa</i>
Common Spider	Sept	<i>Caladenia vulgata</i>
Primrose Spider	August	<i>Caladenia xantha</i>
Blue Beard	August	<i>Cyanicula deformis</i>
Blue China Orchid	October	<i>Cyanicula gemmata</i>
Silky Blue	August	<i>Cyanicula sericea</i>
Midge	July	<i>Cyrtostylis huegelii</i>
Mosquito	June	<i>Cyrtostylis robusta</i>

Orchid	Month	Botanical name
Rosy-Cheeked Donkey	Sept	<i>Diuris aff. corymbosa</i>
Dark Bee Donkey Orchid	October	<i>Diuris aff. laxiflora</i>
Common Donkey	August	<i>Diuris corymbosa</i>
Tall Donkey Orchid	Dec	<i>Diuris drummondii</i>
Bee Donkey Orchid	July	<i>Diuris laxiflora</i>
Purple Pansy	Sept	<i>Diuris longifolia</i>
Swamp Donkey Orchid	Nov	<i>Diuris pauciflora</i>
Western Wheatbelt Donkey	August	<i>Diuris porrifolia</i>
Bristly Donkey Orchid	Nov	<i>Diuris setacea</i>
Purple Enamel Orchid	October	<i>Elythranthera brunonis</i>
Pink Enamel Orchid	October	<i>Elythranthera emarginata</i>
Common Bunny	April	<i>Eriochilus dilatatus sub sp. multiflorus</i>
Crinkle-Leafed Bunny	April	<i>Eriochilus dilatatus sub sp. undulatus</i>
Granite Bunny	April	<i>Eriochilus pulchellus</i>
Rattle Beaks	Sept	<i>Lyperanthus serratus</i>
Swamp Mignonette	Nov	<i>Microtis atrata</i>
Sweet Mignonette	Nov	<i>Microtis brownii</i>
Common Mignonette	Nov	<i>Microtis media subsp. media</i>
South African Orchid	October	<i>Monadenia bracteata</i>
Laughing Leek Orchid	October	<i>Prasophyllum macrostachym</i>
Fringed Leek Orchid	October	<i>Prasophyllum fimbria</i>
Slender Snail	July	<i>Pterostylis aff. nana</i>
Bird Orchid	October	<i>Pterostylis barbata</i>
Hairy Rufous Greenhood	October	<i>Pterostylis ciliata</i>
Cupped Banded Greenhood	June	<i>Pterostylis concava</i>
Jug	July	<i>Pterostylis recurva</i>
Dark Banded Greenhood	June	<i>Pterostylis sanguinea</i>
Banded Greenhood	May	<i>Pterostylis vittata</i>
Sun Orchid	Nov	<i>Thelymitra bethamiana x macrophylla</i>
Granite Sun Orchid	October	<i>Thelymitra aff. macrophylla</i>
Lemon Scented Sun Orchid	Sept	<i>Thelymitra antennifera</i>
Leopard Orchid	October	<i>Thelymitra benthamiana</i>
Leopard Orchid, Yellow Form	October	<i>Thelymitra Sp.</i>
Lilac Sun Orchid	October	<i>Thelymitra cornicina</i>
Blue Lady Sun Orchid	October	<i>Thelymitra crinita</i>
Blue Lady Sun Orchid	October	<i>Thelymitra crinita pink form</i>
Twisted Sun Orchid	October	<i>Thelymitra flexuosa</i>
Chestnut Sun Orchid	Dec	<i>Thelymitra fuscolutea</i>
Shy Sun Orchid	October	<i>Thelymitra graminea</i>
Scented Sun Orchid	October	<i>Thelymitra macrophylla</i>
Scented Sun Orchid	October	<i>Thelymitra macrophylla pink form</i>
Slender Sun Orchid	October	<i>Thelymitra pauciflora</i>

The small town of Frankland River is blessed with a range of bush types that provide food and shelter for local animals. At the southern entrance to town lies Loc. 1997. This special piece of diverse bush provides a wide variety of native plants and an opportunity for birds and other animals to move across the landscape safely.

Many of the plant species found here are suitable for use in revegetation projects and for gardens and parks in the Frankland River area. Using local plants is a good way to ensure that Frankland River retains its unique character and also ensures plants are well adapted to local conditions.

Cyanicula deformis Jim Parry

Urban bushland needs to be managed to keep it healthy. This involves keeping out weeds and rubbish and protecting the bush from fire.

Generally, bushland should not be replanted as that can introduce weed species, soil pathogens and other problems. It is better to allow the natives to do what they do best by removing competition. Always start by protecting the best bush first then moving in to remove weeds from the least weedy areas. For more information on bushland management contact Green Skills on (08) 9848 1019.

It is worth getting to know the local plants. It doesn't take long if you make notes or take photographs.

For a full list of species contact Green Skills. For further information on the species found on Loc 1997 contact:
